

6.5 Solution Preparation

Definition

- Standard solution
- Pure water
- Deionized water
- Distilled water
- Dilution
- Stock solution
- Pipette
- Volumetric flask

Preparing a Solution

- Make a 0.1 mol/L solution for NaOH from crystals.
- Things to think about: delivery, TD, TC, temperature

Homework

- Practice: 1-3, 6-9
- Section: 1-7
