

**NOTES:**

This is where you can record any possible sources of error and any other observations of interest. Be sure to record the date and all relevant details.

DATE	OBSERVATIONS

SNC 1P – Ecojar Self Assessment

Name: \_\_\_\_\_

Success Criteria:	Yes	No
I have included a purpose that explains the reason for doing the lab.		
My hypothesis is reasonable.		
There is a hypothesis for the terrestrial ecosystem and a hypothesis for the aquatic ecosystem.		
My materials list is complete		
All observations are complete and I used descriptive words for my qualitative observations		
The graph includes a legend, a title, labeled axes and a ruler has been used to draw the lines		
Questions 1-5 have been answered completely using observations gathered from the experiment		
The answers to question 6 have been researched thoroughly and answered in complete sentences.		
The conclusion includes all necessary parts and is written in complete sentences		

**Ecojar Inquiry Activity: Success Criteria**

Name: \_\_\_\_\_

<b>Purpose:</b> What is the reason for doing the lab?	012
<b>Hypothesis:</b> Did you make a valid educated guess? Did you include a hypothesis for the terrestrial ecosystem? Did you include a hypothesis for the aquatic ecosystem?	012
<b>Materials:</b> ALL materials used are listed	0123
<b>Observations:</b> Observation table is complete with quantitative and detailed qualitative observations	0246810
<b>Analysis &amp; Questions:</b> The graph includes a legend, title, the axes are labeled and a ruler has been used to draw the lines Questions 1-5 have been answered completely, using observations from the experiment The answers to question 6 demonstrate in-depth research All questions have been answered in complete sentences	01234 0246810 012345 012
<b>Conclusion:</b> The conclusion includes all necessary parts The conclusion is written in full sentences	012345
