

## SNC2DI FINAL EXAM Mark Breakdown

|                | Total | True/False | Multiple Choice | Matching | Fill in the Blank | Short Answer |
|----------------|-------|------------|-----------------|----------|-------------------|--------------|
| Chemistry      | 41    | 3          | 11              | 4        | 12                | 11           |
| Physics        | 41    | 4          | 7               | 4        | 8                 | 18           |
| Biology        | 41    | 5          | 10              | 4        | 10                | 12           |
| Climate Change | 22    | 3          | 7               | 3        | 0                 | 9            |
| Total          | 145   | 15         | 35              | 15       | 30                | 50           |

Your exam is on **Monday January 29<sup>th</sup>, 8:30 am – 10:00 am** in room **2006**

You will have 1.5 hours to write the exam. You are allowed to bring in a non-programmable calculator, ruler, and writing utensils. **You MUST bring your textbook with you to the exam room at least 15 min before the exam starts.**

---

### Where should I start studying . . .

- ☐ Spread out your studying over many days to avoid last minute cramming
- ☐ Read through your notes, consider printing notes from your drive so you can highlight key points
- ☐ Redo worksheets handed out during the 3 units
- ☐ Study and then Redo your quizzes and look over your unit tests in class.
- ☐ Do practice multiple choice questions found at [www.sciencesource.ca](http://www.sciencesource.ca) (username: HHSSstdnt, password: Husky) or elsewhere online
- ☐ Make study notes- especially the topics you are having trouble with. Cue cards can be very helpful for testing yourself! Consider using index cards or [www.cram.com](http://www.cram.com)
- ☐ Watch youtube videos on any topics you are having trouble with
- ☐ Complete the final exam review sheets posted in the classroom
- ☐ Come to class with questions you have encountered

### Prior to the exam:

- ☐ Get a good night's sleep
- ☐ Pack up everything you will need the night before so that nothing is forgotten (pencils, eraser, ruler, scientific calculator, water)
- ☐ Eat a solid breakfast (brain food)
- ☐ Arrive early (with your textbook)

### During the Exam:

- ☐ Do the questions in any order you feel comfortable with (make sure you come back to any skipped questions later!)
- ☐ Read the whole question carefully! Underline/highlight multistep questions
- ☐ Write down what you know (part marks are available) – Don't leave anything blank (ever)
- ☐ Review your test before you hand it in (if extra time) – make sure answers are clear
- ☐ When in doubt ask!
